*** Interest payments are linked to Denmark's Nationalbank's discount rate and contributions earn interest with value on the date after payment.

**** The expense is calculated as a percentage of the guaranteed value and depends on the number of years to retirement and the proportion of equities in the part of your pension scheme value that is not placed in the 'Omlægningsafdeling' (investment fund for policyholders with fewer than five years to retirement).

Danica Pension has reported the rate of its fees and charges to the Danish Financial Supervisory Authority. The costs related to the managing of the pension scheme value in the funds, are held in the funds themselves. The costs are deducted before calculation of the return of the funds and is contained in the annual cost percentage (Danish: ÅOP). Danica Pension receives commission for facilitation investments in the investment funds. This commission is contained in the funds annual cost percentage.
